What our ecosystem is saying about Corda in Energy

"

We chose Corda because of four reasons — #1 Java-based — executing on the JVM, #2 permissioned ledger is key to us as don't want to move data everywhere, #3 the ecosystem-- we have been introduced to some very cool opportunities, including AWS and #4 R3 itself. It's been a real collaboration. I've worked for and with Sun, Oracle, Apple, and IBM, and never been as supported or feel as home as we do with R3.
