UNIQUE APPROACH TO DIGITAL TRANSFORMATION

KEREM OZELLI
FOUNDER, CREATIVE DIRECTOR

it all started in 1988

PAST
NOW
FUTURE
the future depends on what you do today

The founding fathers of FinTech…

The Tech Revolution

During this time not much changed

WHAT'S THE PROBLEM

- Early adopters end up with legacy
- The concept of "end of day"
- Companies merged, systems didn't
- Too much money spent on things people don't see
- Everything got to be done by Christmas

CHANGE

Fallacies...

THE

BIG

PROJECT

OLD

VS

NEW

ONE TEAM

DISRUPTION

THE WEAPON

HOW CAN WE CONNECT OUR LEGACY TO THE FUTURE

- Need a technology platform for the old, new and third party
- It’s not a project, it’s a journey
- Commonality for distributed teams – a design system and component library
- Micro Apps – apps that are powerful on their own but even more powerful when used together
- Rigorous automated testing and brutal acceptance
- Focus on the first-time user experience and interactive training
- It’s all about data and decisions on data

The cost of change is high... and it is quite painful...

but the cost of status quo is more than you imagine

THANK YOU
