## Projects with our API

	Now	Tatum Blockchain API
Development time	12—18 months	1—2 hours
Compliance	None	Built-in
Scalability	Limited to blockchain	Off-chain, Unlimited
Resources	Blockchain developers	Any REST API developer
Vendor lock	Definitive to selected blockchain	Easy to switch to another blockchain

Massive time saving when developing the app. Heroes deliver!

### Selected use cases

## Banking

- Open banking
- Tokenized assets
- Document Storage
- Auditing

## Internet of Things (IoT)

- IoT devices wallets & payments
- Car identities & wallets
- Sensors data
- InsurTech

#### Fintech

- Instant microtransactions
- Content monetization
- Loyalty programs
- Prepaid Wallets

#### **Smart Cities**

- Smart infrastructure
- Smart buildings
- Local currencies
- Municipal services

## Scaling over the blockchain limits

<sup>\*</sup>Real-life result from the hackathon on the sandbox environment. In a production environment, Tatum Blockchain API can scale up to 100,000 tps.

Bringing trust to the blockchain that never existed before.

Connecting the best from both worlds into one platform.

"Working with Tatum
Blockchain API enables me to
test multiple apps on
Blockchain and manage
everything on time with budget
for additional activities"

For Jan and others, we are tearing down the barriers of the Blockchain entry and effective solution building.
