DATACTICS™

About Datactics

Award-winning providers of user-friendly **data quality and matching software**, recently named one of the 50 fastest-growing tech companies on the island of Ireland *(Deloitte)*

Specialising in banking regulation and financial data types for **AML, KYC** and **regulatory reporting**

"Self-Service Data Quality" approach to real-world problems helps those who know the data, to fix the data

Major provider to UK Government departments for **automated classification of data**

Since 2018 we have been investing significantly in **AI / ML**, with particular focus on how best to apply it in **real-world data management**

DATACTICS™

Opportunities for life, for growth

Achieved "Accredited" status in 2019 with Investors in People, who found that "an exceptional 100% of staff believe Datactics is a great place to work. The evidence from IIP assessment indicates the level of personal commitment by its people is exceptional".

We partner with education institutions to access exciting talents with extremely high levels of staff loyalty. Education standards are high across traditional and non-traditional routes.

Through Belfast City Council, Invest Northern Ireland and the UK Department for International Trade, we engage internationally on the Fintech / RegTech / Govtech scene, building our brand and that of NI as a globally-minded exporting nation

DATACTICS™

Financial Crime Excellence

Belfast's status as a Centre of Excellence in Financial Technology established since Citigroup's initial investment in 2004. Since 2010 many roles have been created, increasingly in legal & compliance areas, bolstered by the likes of Big Four accountancy firms and home-grown tech companies.

Datactics plays its part in this regional hotbed of capability through our AML/KYC and regulatory compliance ("RegTech") solutions.
